

Overhanging hedge – Hall Lane Play area

---

To Chair, WPC, via Clerk

I am writing to ask that the Hall Lane Willington Play Area beech hedge boundary, between the Hall Lane entrance and the PA western boundary should be trimmed back to allow safe passage of pushchairs and (in my case) mobility scooters, along the pavement. The hedge at present is well beyond the boundary line of the WPC site, and together with the high pavement presents a potential danger to such users.

Many thanks in anticipation.
